## REPORT OF SELECTMEN

The financial statement shows a large reduction in the balance on hand at the end of the year, but the pictures in this report, referred to in detail in the Road Commissioner's Report, show very clearly the equipment that has been purchased.

At a special Town Meeting on November 7th it was voted to purchase the new four-wheel drive truck and plow.

The welfare expenditures by the Town this year have been \$1,950.34. In 1945 the total was \$1,698.51. Additional assistance has been provided as follows:

The State Department of Public Welfare, through Aid to Dependent Children has made grants to three families and through Aid to the Blind has assisted one person.

The total payments of Old Age benefits to residents of Proctor during 1946 amounted to \$2,643.50.

Our welfare people have done well to provide themselves with food by planting Victory Gardens. The Town encourages you to continue gardening and will assist as in the past.

All employed families living in Town houses have paid their rents regularly. One unoccupied house has been leased to the Vermont Marble Company.

A full report of the white pine blister rust control work is published in this report. Continuance of this work is recommended.

We wish to express our appreciation for the cooperation of our Townspeople and all State Officials who have aided us during the year.

EDWARD W. OLSON,  
JOSEPH F. SHERLOCK,  
FRANK J. OLNEY,  
Selectmen.

**REPORT OF**  
**COOPERATIVE BLISTER RUST CONTROL WORK**  
**TOWN OF PROCTOR, VERMONT**

1946

A sum of \$300.00 was made available by the Town of Proctor and the Vermont Marble Company for use within the Town on White Pine Blister Rust Control work. Two-thirds of this local expense was borne by the Vermont Marble Company. It was agreed that this money would be used in cooperation with funds provided by the U. S. Department of Agriculture and the State of Vermont.

Blister Rust Control eradication work consists of removing and destroying the host plants, in this case wild and cultivated currant and gooseberry bushes, within infecting range of the white pine stands. This work was started along the western boundary of the town and continued north including land in and around the Town Forest. The work started on July 10 and continued through August 5, with a crew of about 15 men.

Eradication work performed during 1946 gave protection from Blister Rust to 155 acres of pine by removing the currant and gooseberry bushes from 335 acres of land. This eradication will provide protection for the white pine for at least 8 to 10 years and in some cases to maturity.

Blister Rust infections were found in all pine areas examined during 1946. By removing the wild and cultivated currant and gooseberry bushes and keeping them out of the pine areas and surrounding land the spread of the disease may be prevented. If left unprotected the disease would spread and increase until the white pine was entirely absent from our forests.

**1946 Work Summary**

Total acres eradicated of Ribes (Currants and Gooseberries)	335
Acres of white pine protected	155
Number of wild ribes removed	11,459
Total man hours (Town)	500
Total man hours (Federal)	1,180
Town expenditures (labor only)	\$300.00
Federal and State expenditures (Labor, transportation, materials)	\$946.77

We hope to continue Blister Rust Control eradication work in Proctor and recommend that \$300.00 be made available for this work during 1947 in order that the work, now so well started, may be carried toward completion in other parts of the town.

M. R. MULHOLLAND,  
Plant Pathological Inspector.

## HIGHWAY COMMISSIONER'S REPORT

The road mileage of Proctor has been increased to 20.3 miles by the completion of the extension of Beaver Pond Road on the west side of the Pond to intersection with the Florence Road. The very attractive picture on this cover shows this extension.

Sections of Pine and Cliff Streets were treated with two applications of tar. One coat was applied to portions of the Florence Road, Pleasant Street, Gibbs Street, Park Street, Holden Street, Grove Street, River Street, Reynolds Street and Warner Avenue. A heavy application of screened gravel and tar was given two sections of West Street. The southern portion of the West Road was given one application joining the Town of Rutland portion which was also treated this year.

It has been possible to obtain the following new equipment during the year: An undertruck blade was added to the Chevrolet Dump Truck. A Tractor with bucket loader was purchased. There is also a sidewalk plow attachment for this equipment. A four wheel drive dump truck with a one way snowplow was purchased and an allowance made for the old Dodge Truck and plow. All of this equipment has proven to be a great aid to the Highway work. Pictures of this new equipment appear on the inside covers of this report.

Much of the summer tar was done with the aid of the State Highway equipment and personnel, under the direction of the District Highway Commissioner. This aid makes it possible to do a higher class of work. Appreciation of this assistance is hereby recorded.

F. J. OLNEY,  
Highway Commissioner.
